Service Planning and Customer Advocacy

Subject: **Bus System Boardings for November 2015**

For the month of November 2015, 3,527,661 passengers boarded OCTA buses, a decrease of approximately 5.4% compared to November 2014 when 3,727,518 riders were carried.

The decrease in total ridership between November in 2015 and 2014 may be slightly understated. Although each month had an equal number of Sundays, November 2015 had one more weekday and one less Saturday as well as one more rain day than November 2014. Normalizing the ridership totals to account for rain days and the difference in the numbers of weekday and Saturday bring the decrease to 6.3%.

In past years, ridership trending up or down was linked to the local economy. A good economy stimulated growth in ridership while it would decline when jobs declined. Unfortunately, the traditional model has not applied to OCTA bus ridership since the end of the recession, as November 2015 marks the 36th straight month of negative growth.

Research is underway to better understand the causal factors involved. While conclusions have not been drawn, there seems to be consensus that while the economy has improved, the jobs typically filled by transit users may have changed in terms of quality and quantity. For example, part-time employment has grown and for those employed only part-time, the need to use transit on a daily basis is not as great.

Other factors are believed to be involved and additional research is under way to better understand them.

Key comparisons between November 2015 and 2014 are detailed below:

- Average Weekday ridership was 7.8% lower (141,951 boardings) than last year (153,992);
- Average Saturday ridership was 4.8% lower (80,411 boardings) than last year (84,465);
- Average Sunday ridership was 2.8% lower (64,630 boardings) compared to last year (66,469); and

- Average Holiday ridership was 6.7% lower (43,843 boardings) compared to last year (47,001).

The statistics below for Local ridership (1-99 series) includes the combined totals for Route 43 together with BRAVO! Route 543 since they both serve the same ridership base along Harbor Boulevard.

Compared to November 2014, changes in average weekday ridership on Local, Community, Express, Rail Feeder Routes, and Metrolink transfers are as follows:

- Local ridership decreased by 7.7%;
- Community ridership decreased by 10.2%;
- Express ridership decreased by 10.3%;
- Rail Feeder ridership decreased by 3.0%; and
- Monthly Metrolink transfers to OCTA bus routes increased by 0.7% and boardings billable to Metrolink decreased by 8.7%.

The table below highlights those busiest routes in the system as measured by boardings. Associated productivities are included and detailed information for all routes in the system can be found in the attachments to this report.

Rank	Route	Boardings	B / RVH
1	057	298,523	36.0
2	060	245,628	35.6
3	064	202,651	43.9
4	047	199,354	31.8
5	043	196,421	35.2
6	066	187,645	39.6
7	053	180,635	34.8
8	029	171,815	29.9
9	042	153,983	33.8
10	055	115,303	24.9

The following graphs show two of the factors that may affect public transit usage – gasoline prices and unemployment rates. The high and low points are highlighted on each graph.

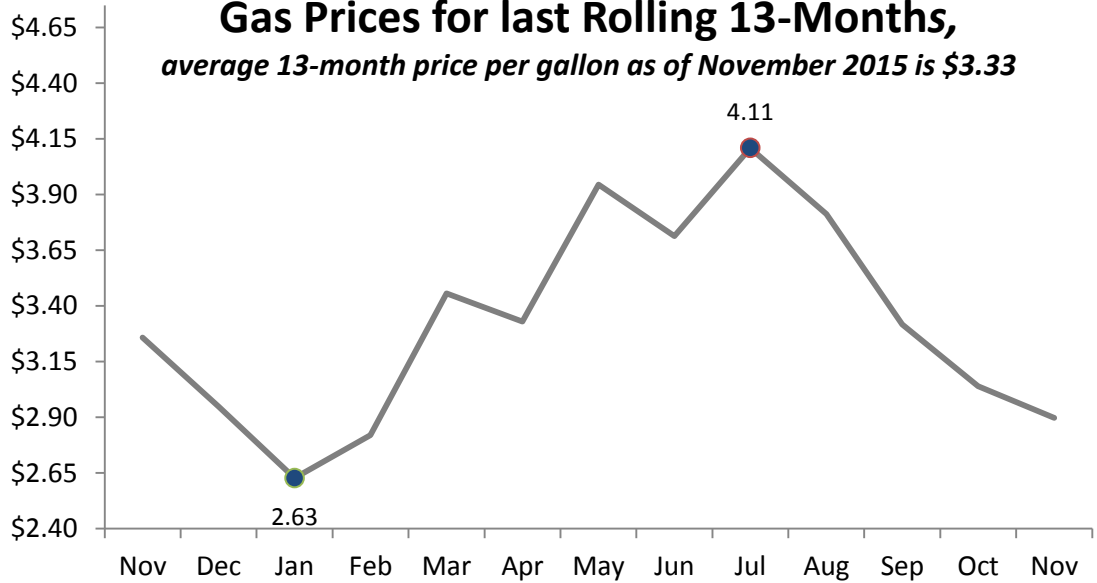

Gasoline prices steeply increased from \$2.63 per gallon in January 2015 to \$4.11 in July 2015 but have fallen sharply in recent months. Gas prices averaged a little over \$2.30 per gallon in November.

Since a high of 8.1% in March 2012, the unemployment rate in Orange County has steadily improved to 4.0% for the month of September 2015.
