

NOTICE

BY ORDER OF JUDGE DAVID O. CARTER

On Tuesday, February 20, 2018, at 9:00 a.m., all persons presently living on the Santa Ana River between Ball Road/Taft Avenue and Memory Lane must move out of and leave the Santa Ana Riverbed.

Temporary housing will be available at several locations.

Anyone who wants to be placed in a motel will be offered a motel room for a minimum of 30 days while the County completes a housing assessment and opens additional facilities that accommodate the needs of people with disabilities, and their pets when possible. Transportation will be provided for people, their pets when possible, and their property that will fit into the trunk of the transporting vehicle. If people have more property than they can take with them, voluntary storage will be provided for 90 days.

Services for Veterans and Domestic Violence survivors and other homeless will be on site.

Judge David O. Carter will be present to oversee the process.

In motels, people will continue to receive services from County mental health and health care workers who will visit the motel locations and ensure that transportation is available to any medical, social service, or housing appointments. For people who are placed in motels, the County will make provisions for access to food.
