Dear OCEMO and EMC Sub,

Thank you for your ongoing commitment to Emergency Management. After 26 years in local government, I will be moving on to the private sector. I leave the OCSD EMD Team in wonderful hands and know that EMD, OCEMO, and EMC Sub will continue to innovate, improve and make each challenge into an opportunity. There is a special place in my heart for OCEMO, for it is with this group that I first learned there was a career to be created in Emergency Management. Over the years, we've collectively supported each other through many disasters, shared experiences and learned from one another. And as for EMC Sub, you are my County family—we've worked to strengthen the County's program and responded together side by side. Thank you for all you do!

I hold each of you in the highest regard. It is the people who made this job so incredible. You are all leaders and the ultimate professionals. And though I will be moving on, I will continue to welcome your discussion, counterpoints, and thought provoking ideas. Keep up the great work and remember to care for yourselves as you do the whole community.

Effective Thursday, January 14th at 5pm, Michelle Anderson will serve as the Interim Director of Emergency Management and she brings to the position a phenomenal combination of skills, knowledge and abilities.

Hope to see you soon!

DB
